Independent Auditors' Report

Board of Education
Harper Creek Community Schools
Battle Creek, Michigan

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Harper Creek Community Schools, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Harper Creek Community Schools, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Harper Creek Community Schools, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Harper Creek Community Schools' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Harper Creek Community Schools' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Harper Creek Community Schools' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and certain pension and OPEB information as identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Harper Creek Community Schools' basic financial statements. The combining nonmajor fund financial statements are presented for the purposes of additional analysis and are not a required part of the basic financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 30, 2022 (under separate cover), on our consideration of Harper Creek Community Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Harper Creek Community Schools' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Harper Creek Community Schools' internal control over financial reporting and compliance.

Harper Creek Community Schools
Management's Discussion and Analysis
Year Ended June 30, 2022

As Administration of Harper Creek Community Schools, Calhoun County, State of Michigan, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2022.

Financial Highlights

- The District's total net position increased by \$3,763,539
- As of the close of the current fiscal year, the District's aggregated fund balance for the District's governmental funds was \$9,744,575.
- The General Fund had a net change in fund balance of \$531,880. At the end of the year, the total fund balance for the General Fund was \$5,122,587 or approximately 15% of the total General Fund expenditures.

Using this Annual Report

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District financially as a whole. The District-Wide Financial Statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The financial statements then proceed to provide an increasingly detailed look at specific financial activities included in the fund financial statements. For governmental activities, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements provide information about the School District's most significant fund – the General Fund, as well as totals for the District's other major and nonmajor funds.

Reporting the District as a Whole

The Statement of Net Position and Statement of Activities – One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of the year's activities?" The statement of net position and the statement of activities, which appear first in the School District's financial statements, report information about the District as a whole and about its activities in a manner that helps to answer this question. These statements include all assets, liabilities, deferred outflows, and deferred inflows of the District using the accrual basis of accounting, which is similar to the accounting used by private-sector corporations.

The statement of net position and statement of activities report the governmental activities for the District. These services include instruction, support services, community services, athletics, food services, and transfers to other local districts. Property taxes, intergovernmental revenues, (unrestricted and restricted State Aid), and charges for services finance most of these activities. All of the current year's revenues and expenses for these services are taken into consideration regardless of when cash is received or paid.

The statement of net position reports the District's net position, the difference between assets and deferred outflows, and liabilities and deferred inflows. The statement of activities reports the District's change in net position, the revenues less expenses for the fiscal year, either as an increase or a decrease, or in other words, the operating results for the year. However, the School District's goal is to provide services to its students, not to generate profits, as private-sector corporations do.

These two statements report the District's net position and changes in net position. The change in net position provides the reader a tool to assist in determining whether the District's financial health is improving or deteriorating. The reader will need to consider other non-financial factors such as the property tax base, political conditions at the State Capitol, student enrollment growth or shrinkage, birth rates, and facility conditions in arriving at their conclusion regarding the overall health of the District.

The district-wide financial statements can be found on pages 1-2 of this report.

Harper Creek Community Schools
Management's Discussion and Analysis
Year Ended June 30, 2022

Reporting the District's Most Significant Funds

Fund Financial Statements – The fund financial statements provide detailed information about the most significant funds – not the District as a whole. The fund statements are formatted to comply with the legal requirements of the Michigan Department of Education's *Accounting Manual*.

Governmental Funds – Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. In the fund financial statements, capital assets purchased by cash are reported as expenditures in the year of acquisition and thus, no capital assets are reported. The issuance of debt is recorded as a financial resource. The current year's payments of principal and interest on long-term obligations are recorded as expenditures. Future years' debt obligations are not recorded.

The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or less financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the basic financial statements.

The basic governmental fund financial statements can be found on pages 3 and 5 of this report.

Additional Information – The notes to financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages 7-24 of this report.

Harper Creek Community Schools
Management's Discussion and Analysis
Year Ended June 30, 2022

Government-Wide Financial Analysis

The government-wide financial analysis focuses on the net position and changes in net position of the District's governmental activities. As noted earlier, net position may serve over time as a useful indicator of a government's financial position.

The following is a summary of the School District's net position as of June 30, 2022 and 2021:

	<u>Governmental Activities</u>	
	<u>2022</u>	<u>2021</u>
Assets:		
Current assets	\$ 13,164,869	\$ 9,771,138
Non-current assets	53,191,461	54,160,045
Total assets	<u>66,356,330</u>	<u>63,931,183</u>
 Deferred Outflows of Resources	 <u>13,545,029</u>	 <u>18,841,354</u>
Liabilities:		
Current liabilities	3,420,294	69,566,111
Non-current liabilities	98,551,519	57,393,632
Total liabilities	<u>101,971,813</u>	<u>126,959,743</u>
 Deferred Inflows of Resources	 <u>25,175,184</u>	 <u>6,821,971</u>
 Net Position:		
Invested in capital assets - net of related debt	24,159,636	23,410,564
Restricted	1,658,360	804,276
Unrestricted	<u>(73,063,634)</u>	<u>(75,224,017)</u>
Total net position	<u><u>\$(47,245,638)</u></u>	<u><u>\$(51,009,177)</u></u>

The above analysis focuses on the net position. The change in net position of the School District's governmental activities is discussed below. The net position differs from fund balances and a reconciliation appears on page 4.

By far the largest portion of the District's positive net position reflects its investment in capital assets (i.e. land, buildings, vehicles, and equipment) less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Typically, one portion of the District's net position, the *restricted* portion, represents resources that are subject to external restrictions on how they may be used. In the case of the School District, these included amounts restricted for student activities, capital projects, and debt service. The *unrestricted* balance of \$(73,063,634), which is a *negative* net position, is negative as a result of the pension and OPEB liabilities. The pension and OPEB liabilities at fiscal year-end are expected to be reduced to \$0 over an 18-year period.

The results of this year's operations for the School District as a whole are reported in the Statement of Activities which shows the change in net position for fiscal year 2022.

Harper Creek Community Schools
Management's Discussion and Analysis
Year Ended June 30, 2022

The following is a summary of the changes in net position for the years ended June 30, 2022 and 2021:

	<u>Governmental Activities</u>	
	<u>2022</u>	<u>2021</u>
Revenues:		
Program revenues:		
Charges for services	\$ 1,259,118	\$ 127,899
Operating grants	9,484,097	8,959,627
General revenues:		
Property taxes	10,036,099	7,305,475
State School Aid	19,528,723	18,641,615
Grants and contributions		2,331,774
Unrestricted investment earnings	11,779	12,485
Other	113,100	-
Total revenues	<u>40,432,916</u>	<u>37,378,875</u>
Expenses:		
Instruction	19,778,608	21,959,606
Support services	10,368,815	10,724,935
Food service	1,560,149	1,087,309
Athletics	788,935	711,770
Student activities	343,437	
Community service	301,746	226,914
Interest	1,549,423	1,704,218
Capital outlay	159,261	-
Depreciation (unallocated)	1,819,003	1,842,441
Total expenses	<u>36,669,377</u>	<u>38,257,193</u>
Change in net position	3,763,539	(878,318)
Net position, beginning of year	<u>(51,009,177)</u>	<u>(50,130,859)</u>
Net position, end of year	<u><u>\$ (47,245,638)</u></u>	<u><u>\$ (51,009,177)</u></u>

The District's net position increased by \$3,763,539 during the current fiscal year. The increase in net position differs from the change in fund balance and a reconciliation appears on page 6.

The net cost shows the financial burden that was placed on the State and the School District's taxpayers by each of these functions. Since property taxes for operations and unrestricted State Aid constitute the vast majority of the School District's operating revenue sources, the Board of Education and Administration must annually evaluate the needs of the School District and balance those needs with State-prescribed available unrestricted resources.

Harper Creek Community Schools
Management's Discussion and Analysis
Year Ended June 30, 2022

General Fund Budgeting and Operating Highlights

During the fiscal year, the original budget was amended as additional information became known, including student counts and the final allocation amounts for the District's federal grants.

The change between the original and final amended budget for revenues was an increase of \$7,616,895. Local revenue changed by \$534,254 largely based on increase to the final taxable property values. State sources increased by \$4,339,841, a combination of an increase in the foundation allowance from what was projected in June 2021 and the final pupil count. Federal sources increased by \$2,262,256 to reflect grant awards the District anticipated spending.

The change between the original and final amended budget for expenditures was an increase of \$5,636,695 over the original budget. The original budget for instruction and supporting services increased by \$3,114,726 and \$3,013,025, respectively, due to the spending of federal grant funds awarded and conservative budgeting in June, 2021.

Additionally, the original budget for community services and activities increased by \$315,211 as a result of the expenditures related to the child care program being reallocated.

Overall, the actual general fund revenues were \$318,239 greater than the final amended budget, and the actual general fund expenditures were \$122,531 greater than the final amended budget. The budget to actual revenue variance was caused by the practice of being conservative in budgets and the additional state and federal revenue.

Capital Asset and Debt Administration

Capital Assets – At the end of the fiscal year 2022, the School District had \$86,381,232 invested in land and buildings, furniture and equipment, vehicles, and construction in progress. Of this amount, \$33,189,771 in depreciation has been taken over the years. We currently have a net book value of \$53,191,461.

	<u>2022</u>	<u>2021</u>
Land	\$ 812,508	\$ 812,508
Construction in progress	591,882	-
Buildings and improvements	80,125,641	80,125,641
Vehicles	3,214,501	3,153,976
Furniture and equipment	1,636,700	1,474,132
Total capital assets	<u>86,381,232</u>	<u>85,566,257</u>
Less accumulated depreciation	<u>(33,189,771)</u>	<u>(31,406,212)</u>
Net capital assets	<u>\$ 53,191,461</u>	<u>\$ 54,160,045</u>

Additional information on the District's capital assets can be found in the notes to the financial statements.

Harper Creek Community Schools
Management's Discussion and Analysis
Year Ended June 30, 2022

Long-Term Debt – At June 30, 2022, the District had total long-term debt outstanding of \$56,143,511. Long-term debt at fiscal year-end included the following:

	<u>2022</u>	<u>2021</u>
Bonds payable	\$ 41,005,000	\$ 44,700,000
Notes payable	1,414,959	-
Capital leases payable	42,560	74,480
Bond premium	2,258,984	2,675,362
School bond loan fund	11,318,985	9,846,443
Compensated absences	103,023	97,347
Total long-term debt	<u>\$ 56,143,511</u>	<u>\$ 57,393,632</u>

Additional information on the District's long-term debt can be found in the notes to the financial statements.

The District also has long-term pension and OPEB liabilities, netted with related deferred inflows and deferred outflows of resources, of approximately \$46,000,000 and \$8,000,000, respectively. These liabilities are being amortized over an 18-year period. See Note 10 for further information.

Outlook for the Future

Supplemental funds, from both the State and federal levels, enabled the District to remain financially solid throughout this fiscal year.

Addressing the loss of learning due to the COVID pandemic will impact the District's operations for several years. Redesign of the curriculum's scope & sequence is necessary and will be a multi-year process.

The School District needs to remain intentional about cost containment in order to maintain a stable financial position.

Our 22/23 budget was prepared expecting pupil count to remain consistent, a \$400 per pupil increase, and reflects anticipated increases in salary, health costs and retirement.

Requests for Information

This financial report is designed to provide a general overview of the Harper Creek Community Schools' finances for all those with an interest in the District's finances. Harper Creek Community Schools

Reconciliation of Fund Balances on the Balance Sheet of Governmental Funds to Net Position of Governmental Activities on the Statement of Net Position

June 30, 2022

Total Fund Balances - Governmental Funds \$ 9,744,575

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not current financial resources and therefore are not reported in the funds.

The cost of capital assets is	\$ 86,381,232	
Accumulated depreciation is	<u>(33,189,771)</u>	
		53,191,461

Long-term liabilities and related deferred outflows and inflows are not due and payable in the current period and are not reported in the funds.

Bonds payable	(41,005,000)	
Notes payable	(1,414,959)	
Capital leases payable	(42,560)	
Unamortized bond premiums, net	(2,258,984)	
School bond loan funds payable	(11,318,985)	
Compensated absences	(103,023)	
Unamortized deferred charge on bond refunding	794,678	
Accrued interest on bonds and notes payable	(258,670)	
Deferred outflows related to net pension liability	9,155,071	
Deferred outflows related to net OPEB liability	3,595,280	
Deferred inflows related to net pension liability	(15,637,194)	
Deferred inflows related to net OPEB liability	(9,537,990)	
Net pension liability	(39,603,290)	
Net OPEB liability	<u>(2,546,048)</u>	
		<u>(110,181,674)</u>

Total Net Position - Governmental Activities \$ (47,245,638)

Harper Creek Community Schools

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2022

Net Change in Fund Balances - Total Governmental Funds \$ 2,987,097

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures; in the Statement of Activities, these costs are allocated over their estimated useful lives as depreciation.

Depreciation expense	\$ (1,819,003)	
Capital outlay	850,419	
	<u> </u>	(968,584)

Governmental funds report bond proceeds as current financial resources. In contrast, the Statement of Activities treats such issuance of debt as a liability. Governmental funds report repayment of bond principal as an expenditure. In contrast, the Statement of Activities treats such repayments as a reduction in long-term liabilities. This is the amount by which repayments exceeded proceeds:

Issuance of long-term debt	(2,887,501)	
Principal payments on long-term debt	3,726,920	
Amortization of bond premium	416,378	
Amortization of deferred charge on refunding	(115,683)	
	<u> </u>	1,140,114

Some expenses reported in the Statement of Activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:

Change in accrued interest on bonds and notes payable	14,789	
Change in accrued compensated absences	(5,676)	
	<u> </u>	9,113

Governmental funds report the required pension and OPEB contributions for the District's fiscal year ended June 30 as expenditures. The Statement of Activities reports the fully accrued pension and OPEB expenses based upon a September year-end to coincide with the State of Michigan's fiscal year.

Changes in pension related liabilities and deferrals	(1,961,904)	
Changes in OPEB related liabilities and deferrals	2,557,703	
	<u> </u>	595,799

Change in Net Position of Governmental Activities \$ 3,763,539

Harper Creek Community Schools
Notes to Financial Statements

Note 1 – Summary of Significant Accounting Policies

The basic financial statements of Harper Creek Community Schools (the “School District” or “District”) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District’s accounting policies are described below.

Reporting Entity

The School District is governed by an elected seven-member Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District’s reporting entity, and which organizations are legally separate, component units of the School District. Based on the application of the criteria, the District does not contain any component units.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

District-Wide and Fund Financial Statements

District-Wide Statements – The district-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the School District’s government-wide activities are considered governmental activities.

The Statement of Net Position presents all governmental activities on a consolidated basis. The Statement of Net Position reports all assets and liabilities including those of a long-term nature. The net difference is reported as net position. Net position is categorized as net investment in capital assets, restricted net position, and unrestricted net position. It is the District’s policy to allocate resource outlays first to restricted net position with the remainder allocated to unrestricted net position.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments, and other unrestricted items are not included as program revenues but instead as general revenue. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the district-wide financial statements.

Harper Creek Community Schools
Notes to Financial Statements

Note 1 – Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

District-Wide and Fund Financial Statements (Continued)

Fund-Based Statements – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, severance pay, claims, and judgments, are recorded only when payment is due. General capital assets acquisitions are reported as expenditures in governmental funds; issuance of long-term debt and acquisition under capital leases are reported as other financing sources.

Property taxes, unrestricted State aid, intergovernmental grants, and interest associated with the current fiscal period, are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the government.

The School District reports the following major governmental funds:

General Fund – The General Fund is the School District’s primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

Food Service Fund – The Food Service Fund is used to account for specific revenue sources that are restricted to expenditures for providing meals to students.

Capital Projects Fund – The Capital Projects Fund is used to record tax receipts or other revenue and the disbursement of monies specifically designated for the acquisition or construction of capital assets.

Additionally, the government reports the following fund types:

Special Revenue Funds – Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes (not including expendable trusts or major capital projects). The District maintains the Food Service Fund (a major fund) and the Student Activities Fund.

Debt Funds – Debt funds are used to account for and report financial resources that are restricted to expenditures for principal and interest. The District maintains the following debt funds: 2015 Debt, 2015 Series B Debt, 2016 Debt, 2017 Debt, and 2019 Debt.

Revenue, Assets, Liabilities, and Net Position or Equity

State Revenue – The State of Michigan utilizes a foundation grant approach which provides for a specific annual amount of revenue per pupil based on a statewide formula. The foundation is funded from State and local sources. Revenues from State sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of State funds to school districts based on information supplied by the districts. For the year ended June 30, 2022, the foundation allowance was based on pupil membership counts taken in February 2021 and October 2021.

Harper Creek Community Schools
Notes to Financial Statements

Note 1 – Summary of Significant Accounting Policies (Continued)

Revenue, Assets, Liabilities, and Net Position or Equity (Continued)

State Revenue (Continued) – The State portion of the foundation is provided primarily by a State education property tax millage of 6 mills and an allocated portion of State sales and other taxes. The local portion of the foundation is funded primarily by non-PRE (principle residence exemption) property taxes which may be levied at a rate of up to 18 mills. The local portion also includes 6 mills on commercial personal property. The State revenue is recognized during the foundation period and is funded through payments from October 2021 to August 2022. The unpaid portion at June 30th is reported as due from other governmental units.

The District also receives revenue from the State to administer certain categorical education programs. State rules require that revenue earmarked for these programs be used for its specific purpose. Certain categorical funds require an accounting to the State of the expenditures incurred. For categorical funds meeting this requirement, funds received, which are not expended by the close of the fiscal year, are recorded as unearned revenue. Other categorical funding is recognized when the appropriation is received.

Property Taxes - Property taxes levied by the District are collected by various municipalities and periodically remitted to the District. The taxes are levied and become a lien as of July 1 and are due upon receipt of the billing by the taxpayer and become a lien on the first day of the levy year. The actual due date is September 14, after which time the bills become delinquent and penalties and interest may be assessed by the collecting entity.

For the year ended June 30, 2022, the District levied the following amounts per \$1,000 of assessed valuation:

General Fund – non-primary residence	18.0000
General Fund – commercial personal property	6.0000
Debt Funds	7.1200

Tax abatements provided to property tax payers, if any, were not significant, and thus, no disclosure was deemed required in accordance with GASB Statement No. 77, *Tax Abatement Disclosures*.

Deposits and Investments – Cash and cash equivalents include cash on hand, demand deposits, and certificates of deposit.

The District reports its investments in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools* and GASB Statement No. 40, *Deposits and Investment Risk Disclosures*. Under these standards, certain investments are valued at fair value as determined by quoted market prices or by estimated fair values when quoted market prices are not available. The standards also provide that certain investments are valued at cost (or amortized cost) when they are of a short-term duration, the rate of return is fixed, and the District intends to hold the investment until maturity. Accordingly, investments in bankers' acceptances and commercial paper are recorded at amortized cost.

State statutes authorize the District to invest in bonds, and other direct and certain indirect obligations of the U.S. Treasury; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, savings and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or National Credit Union Administration, respectively; and in commercial paper rated at the time of purchase within the three highest classifications established by not less than two standard rating services and which matures not more than 270 days after the date of purchase. The District is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

Harper Creek Community Schools
Notes to Financial Statements

Note 1 – Summary of Significant Accounting Policies (Continued)

Revenue, Assets, Liabilities, and Net Position or Equity (Continued)

Receivables and Payables – In general, outstanding balances between funds are reported as “due to/from other funds.” Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “advances to/from other funds.” Property tax and other trade receivables are shown net of an allowance for uncollectible amounts. The District has determined the uncollectible amounts are immaterial and no provision has been recorded.

Inventories and Prepaid Items – Inventories are valued at cost on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both district-wide and fund financial statements.

Capital Assets - Capital assets, which include land, buildings, equipment, and vehicles, are reported in the applicable governmental activities column in the district-wide financial statements. The government defines capital assets as assets with an initial individual cost of \$5,000 or greater and an estimated useful life in excess of one year. Group purchases are evaluated on a case-by-case basis. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset lives are not capitalized.

Right to use assets, if any, are amortized using the straight-line method over the shorter of the lease period or the estimated useful lives. Fixed assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements	5-50 years
Buses and other vehicles	5-10 years
Furniture and equipment	5-10 years

Compensated Absences - The District reports a liability for compensated absences which consists of unpaid, accumulated sick leave balances. The liability has been calculated using the vesting method in which leave amounts for employees who are currently eligible to receive termination payments are included.

Long-Term Obligations – In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources – In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position or fund balance that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District currently reports deferred outflows of resources related to deferred pension and OPEB plan expenses. Deferred pension and OPEB plan expenses are recognized in the applicable plan years. The District also currently reports deferred outflows of resources from pension and OPEB payments made subsequent to the measurement date to be recognized as the corresponding time lags are met.

Harper Creek Community Schools
Notes to Financial Statements

Note 1 – Summary of Significant Accounting Policies (Continued)

Revenue, Assets, Liabilities, and Net Position or Equity (Continued)

Deferred Outflows/Inflows of Resources (Continued) - In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District currently reports deferred inflows of resources related to its pension and OPEB plan earnings. These future resources will be amortized and recognized over a time period established by the actuary and relate to differences between actuarial estimates and actual results.

Defined Benefit Pension Plan – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public Employees' Retirement System (MPERS) and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the plan benefit terms. Related plan investments are reported at fair value. See Note 10 for detailed information.

Postemployment Benefits Other Than Pensions – For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Michigan Public Employees' Retirement System (MPERS) and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Related investments are reported at fair value. See Note 10 for detailed information.

Fund Equity – The District has implemented GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. In accordance with this guidance, fund balances of governmental funds are categorized according to five defined categories of fund balance. These categories consist of *nonspendable* amounts which are not in spendable form or are legally or contractually required to be maintained intact; *restricted* amounts that are constrained for specific purposes set by external parties or law; *committed* amounts that are constraints set by the highest decision making authority (the School Board) through adoption of a resolution and may only be removed by the School Board through a rescindment resolution; *assigned* amounts that have an intended purpose but require no formal specific action; and *unassigned* amounts which are the residual of the other categories and have no specific purpose.

It is the District's policy to generally use fund balance in order according to the hierarchy of fund balance categories, from restricted down to unassigned.

Use of Estimates - The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenditures. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Harper Creek Community Schools
Notes to Financial Statements

Note 2 – Stewardship, Compliance, and Accountability

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriations lapse at fiscal year-end. The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The Superintendent submits to the School Board a proposed operating budget for the fiscal year commencing on July 1. The operating budget includes proposed expenditures and the means of financing them. The level of control for the budgets is at the functional level as set forth and presented as required supplemental information.
2. Public hearings are conducted to obtain taxpayer comments.
3. Prior to July 1, the budget is legally adopted by School Board resolution pursuant to the *Uniform Budgeting and Accounting Act* (P.A. 621 of 1978). The Act requires that the budget be amended prior to the end of the fiscal year when necessary to adjust appropriations if it appears that revenues and other financing sources will be less than anticipated or so that expenditures will not be in excess of original estimates. Expenditures shall not be made or incurred, unless authorized in the budget, in excess of the amount appropriated. Violations, if any, for the General Fund and Food Service Fund are noted in the required supplemental information section.
4. The Superintendent is authorized to transfer budgeted amounts between major expenditures functions within any fund; however, these transfers and any revisions that alter the total expenditures of any fund must be approved by the School Board.
5. Formal budgetary integration is employed as a management control device during the year for the General and Special Revenue Funds.
6. The budget was amended during the year with supplemental appropriations, the last one approved prior to fiscal year-end.

Note 3 – Deposits and Investments

At year-end, the District's deposits were reported in the basic financial statements in the following categories:

	Governmental Activities
Cash and cash equivalents	\$ 6,585,546

The breakdown between deposits and investments for the School District is as follows:

Deposits (checking and savings accounts)	\$ 6,585,546
--	--------------

Investment and Deposit Risk – The District's cash and investments are subject to several types of risk, as noted below.

Custodial Credit Risk – Deposits – Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. The District requires that financial institutions be evaluated and only those with an acceptable risk level are used for the District's deposits for custodial credit risk. At year-end, the District's deposit balance of approximately \$6,800,000 had \$6,500,000 of bank deposits that were uninsured and uncollateralized.

Harper Creek Community Schools
Notes to Financial Statements

Note 3 – Deposits and Investments (Continued)

Custodial Credit Risk – Investments – Custodial credit risk of investments is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District does not have an investment policy for custodial credit risk.

Interest Rate Risk – State law limits the allowable investments and the maturities of some of the allowable investments. The District's investment policy does not have specific limits in excess of State law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk – State law limits investments to specific government securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers' acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools. See Note 1 for a full description of allowed investments. The District's investment policy does not further limit its investment choices.

Note 4 – Receivables

Receivables at year end totaled \$6,370,576 and consist mainly of amounts due from the Michigan Department of Education for State aid and federal grants.

Note 5 – Capital Assets

Capital asset activity of the District's governmental activities was as follows:

	Beginning Balance	Additions	Disposals	Year-End Balance
Capital assets not being depreciated:				
Land	\$ 812,508	\$ -	\$ -	\$ 812,508
Construction in progress	-	591,882	-	591,882
Subtotal	<u>812,508</u>	<u>591,882</u>	<u>-</u>	<u>1,404,390</u>
Capital assets being depreciated:				
Buildings and improvements	80,125,641	-	-	80,125,641
Buses and other vehicles	3,153,976	60,525	-	3,214,501
Furniture and equipment	1,474,132	198,012	35,444	1,636,700
Subtotal	<u>84,753,749</u>	<u>258,537</u>	<u>35,444</u>	<u>84,976,842</u>
Accumulated depreciation:				
Buildings and improvements	28,099,771	1,533,350	-	29,633,121
Buses and other vehicles	2,370,520	171,386	-	2,541,906
Furniture and equipment	935,921	114,267	35,444	1,014,744
Subtotal	<u>31,406,212</u>	<u>1,819,003</u>	<u>35,444</u>	<u>33,189,771</u>
Net capital assets being depreciated	<u>53,347,537</u>	<u>(1,560,466)</u>	<u>-</u>	<u>51,787,071</u>
Net capital assets	<u>\$ 54,160,045</u>	<u>\$ (968,584)</u>	<u>\$ -</u>	<u>\$ 53,191,461</u>

Depreciation for the current year totaled \$1,819,003. The District determined that it was impractical to allocate depreciation to various governmental activities as the assets serve multiple functions.

Harper Creek Community Schools
Notes to Financial Statements

Note 6 – Interfund Receivables, Payables and Transfers

The District reports interfund balances between some of its funds. The sum of all balances presented in the table below agrees with the sum of interfund balances presented in the statements of net position/balance sheet for governmental funds. These interfund balances resulted primarily from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

As of June 30, 2022, interfund receivables and payables consisted of the following:

Due To:	Due From:	
	General Fund	Capital Projects Fund
General Fund	\$ -	\$ 41,342
Food Service Fund	150,020	-
Nonmajor governmental funds	2,106	-
	\$ 152,126	\$ 41,342

For the year ended June 30, 2022, interfund transfers consisted of the following:

Transfers Out:	Transfers In		
	General Fund	Food Service Fund	Nonmajor Governmental Funds
General Fund	\$ -	\$ 563	\$ -
Food Service Fund	12,072	-	-
Nonmajor governmental funds	-	-	289,777
	\$ 12,072	\$ 563	\$ 289,777

Harper Creek Community Schools
Notes to Financial Statements

Note 7 – Long-Term Debt

The School District issues bonds, notes, and other contractual commitments to provide for the acquisition and construction of major capital facilities and the acquisition of certain equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. Activity is summarized as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Amounts Due Within One Year</u>
General obligation bonds payable	\$ 44,700,000	\$ -	\$ 3,695,000	\$ 41,005,000	\$ 3,825,000
Notes payable	-	1,414,959	-	1,414,959	282,992
Capital leases payable	74,480	-	31,920	42,560	31,920
Subtotal - installment debt	<u>44,774,480</u>	<u>1,414,959</u>	<u>3,726,920</u>	<u>42,462,519</u>	<u>4,139,912</u>
Bond premium	2,675,362	-	416,378	2,258,984	416,378
School bond loan fund	9,846,443	1,472,542	-	11,318,985	-
Compensated absences	97,347	5,676	-	103,023	5,151
Total long-term debt	<u>\$ 57,393,632</u>	<u>\$ 2,893,177</u>	<u>\$ 4,143,298</u>	<u>\$ 56,143,511</u>	<u>\$ 4,561,441</u>

Bonds payable - \$18,245,000 2015 Series A Refunding

Bonds, due in annual installments of \$2,060,000 to \$2,085,000 through year 2024; interest at 4.00%

\$ 4,145,000

Bonds payable - \$8,715,000 2016 Refunding Bonds, due in annual installments of \$600,000 to \$2,070,000 through year 2029; interest at 4.00%

8,715,000

Bonds payable - \$15,350,000 2017 Refunding Bonds, due in annual installments of \$670,000 to \$2,820,000 through year 2033; interest at 2.00% to 5.00%

13,250,000

Bonds payable - \$15,790,000 2019 Refunding Bonds (SBLF), due in annual installments of \$1,055,000 to \$2,250,000 through year 2031; interest at 2.07% to 2.74%

14,895,000

Notes payable – Southern Michigan Bank & Trust, secured by equipment; annual installments of \$282,992 plus interest at 2.00%; matures 2027

1,414,959
\$ 42,419,959

Harper Creek Community Schools
Notes to Financial Statements

Note 7 – Long-Term Debt (Continued)

Future principal and interest payment requirements on bonds and notes payable are as follows:

	Governmental Activities		
	Principal	Interest	Total
2023	\$ 4,107,992	\$ 1,547,782	\$ 5,655,774
2024	4,232,992	1,408,212	5,641,204
2025	4,367,992	1,266,938	5,634,930
2026	4,512,992	1,120,096	5,633,088
2027	4,657,991	968,938	5,626,929
2028-2032	19,850,000	2,259,572	22,109,572
2033	690,000	34,500	724,500
Total	\$ 42,419,959	\$ 8,606,038	\$ 51,025,997

Capital lease payable

Capital lease payable - \$159,600, due in monthly installments of \$2,660 through year 2024; interest at 0.00% \$ 42,560

Future minimum lease payments are as follows:

	Payments
2023	\$ 31,920
2024	10,640
Total	\$ 42,560

Of the amounts reported in capital assets, \$159,600 of furniture and equipment were purchased through a capital lease. The related accumulated depreciation was \$95,760 at year-end.

School Bond Loan Fund

The school bond loan fund represents amounts borrowed from the State of Michigan School Bond Loan program to supplement property tax revenue for making payments on the District's general obligation bonds. Although interest accrues each year, no payment is due until such time as the District's property tax revenue is sufficient to support the debt service requirements on the general obligation bonds. Changes in principal and interest were as follows:

	School Loan Revolving Fund		
	Principal	Interest	Total
Beginning balances	\$ 9,645,794	\$ 200,649	\$ 9,846,443
Additions	1,218,466	254,076	1,472,542
Ending balances	\$ 10,864,260	\$ 454,725	\$ 11,318,985

Harper Creek Community Schools
Notes to Financial Statements

Note 9 – Risk Management

The School District is exposed to various risks of loss related torts; theft of, damage to, and destruction of assets; errors and omissions; employee injuries and natural disasters. The District participates in a distinct pool of educational institutions within the State of Michigan for self-insuring workers' disability compensation. The pool is considered a public entity risk pool. The District pays annual premiums to the pool for the respective insurance coverage. In the event the pool's total claims and expenses for a policy year exceed the total normal annual premiums for said year, all members of the specific pool's policy year may be subject to special assessment to make up the deficiency. The pool maintains reinsurance for claims in excess of \$500,000 for each occurrence with the overall maximum coverage being unlimited. The District has not been informed of any special assessments being required.

Note 10 – Defined Benefit Pension Plan and Postemployment Benefits Other Than Pensions

Organization

Pension/OPEB Plan Description – The School District participates in the Michigan Public School Employees' Retirement System ("MPERS" or "the System"), a State-wide, cost-sharing, multiple-employer defined benefit public employee retirement plan governed by the State of Michigan. The System's pension plan was established by the State to provide retirement, survivor, and disability benefits to public school employees, and covers substantially all employees of the School District. There are currently approximately 680 participating employers in the System which meets the definition of a qualified pension trust fund under Section 401(a) of the Internal Revenue Code. In addition, the System maintains a health plan ("OPEB") which provides postemployment healthcare benefits to all eligible retirees as an elective option including health, prescription drug, dental, and vision coverage.

The System was originally created under Public Act 136 of 1945, recodified, and currently operates under the provisions of Public Act 300 of 1980, as amended. Section 25 of this Act establishes a governing board and its authority to promulgate or amend the provisions of the System. The board consists of twelve members – eleven appointed by the Governor and the State Superintendent of Instruction, who serves as an ex-officio member.

The System is administered by the Office of Retirement Services within the Michigan Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State of Michigan Investment Board serves as the investment fiduciary and custodian for the System.

The System's financial statements are included as a pension and other employee benefit trust fund in the State of Michigan Comprehensive Annual Financial Report and are available on the ORS website at www.michigan.gov/orsschools. Information provided in this report includes financial data, actuarial assumptions data, and detailed information about the pension plan and OPEB plan fiduciary net positions.

Pension Benefits Provided – Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan. Depending on the plan option selected, member retirement benefits for DB plan members are determined by final average compensation, years of service, and a pension factor ranging from 1.25% to 1.50%. DB members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to DB plan members.

Harper Creek Community Schools
Notes to Financial Statements

Note 10 – Defined Benefit Pension Plan and Postemployment Benefits Other Than Pensions (Continued)

Organization (Continued)

Pension Benefits Provided (Continued) – A DB plan member who leaves Michigan public school employment may request a refund of his or her member contributions to the retirement system account, if applicable. A refund cancels a former member's rights to future benefits. However, returning members who previously received a refund of their contributions may reinstate their service through repayment of the refund upon satisfaction of certain requirements.

OPEB Benefits Provided – Benefit provisions of the postemployment healthcare plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions. Retirees have the option of health coverage, which, through 2012, was funded on a cash disbursement basis. Beginning fiscal year 2013, it is funded on a prefunded basis. The System has contracted to provide the comprehensive group medical, prescription drug, dental and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by the System with the balance deducted from the monthly pension of each retiree healthcare recipient. For members who first worked before July 1, 2008 (Basic, MIP-Fixed, and MIP Graded plan members), the subsidy is the maximum allowed by statute. To limit future liabilities of OPEB, members who first worked on or after July 1, 2008 (MIP-Plus plan members) have a graded premium subsidy based on career length where they accrue credit towards their insurance premiums in retirement, not to exceed the maximum allowable by statute.

Public Act 300 of 2012 sets the maximum subsidy at 80% beginning January 1, 2013; 90% for those Medicare eligible and enrolled in the insurances as of that date. Dependents are eligible for healthcare coverage if they meet the dependency requirements set forth in Public Act 300 of 1980, as amended.

Public Act 300 of 2012 granted all active members of the MPSERS, who earned service credit in the twelve months ending September 3, 2012 or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their retirement healthcare. Any changes to a member's healthcare benefit are effective as of the member's transition date, which is defined as the first day of the pay period that begins on or after February 1, 2013.

Under Public Act 300 of 2012, members were given the choice between continuing the 3% contribution to retiree healthcare and keeping the premium subsidy benefit described above, or choosing not to pay the 3% contribution and instead opting out of the subsidy benefit and becoming a participant in the Personal Healthcare Fund (PHF), a portable, tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2% employee contribution into their 457 account as of their transition date, earning them a 2% employer match into a 401(k) account. Members who selected this option stop paying the 3% contribution to retiree healthcare as of the day before their transition date, and their prior contributions were deposited into their 401(k) account.

Pension/OPEB Plan Contributions – Public Act 300 of 1980, as amended, requires contributions from both the participating employers and the active plan members. The School District, as a participating employer, is required to contribute amounts necessary to finance the coverage of pension and OPEB benefits of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature. Under these provisions, each school district's contribution is expected to finance the costs of benefits earned by employees (plan members) during the year, with an additional amount paid in to finance a portion of the unfunded actuarial accrued liability.

Harper Creek Community Schools
Notes to Financial Statements

Note 10 – Defined Benefit Pension Plan and Postemployment Benefits Other Than Pensions (Continued)

Organization (Continued)

Pension/OPEB Plan Contributions (Continued) – Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. The unfunded (overfunded) actuarial accrued liability will be amortized over an 18-year period beginning October 1, 2020 and ending September 30, 2038.

Pension Plan Contributions – The schedule below summarizes pension contribution rates in effect for fiscal year ended September 30, 2021:

<u>Benefit Type</u>	<u>Member Rates</u>	<u>Status</u>
Basic (Defined Benefit)	0.0% - 4.0%	Closed
MIP (Defined Benefit)	3.0% - 7.0%	Closed
Pension Plus (Hybrid)	3.0% - 6.4%	Closed
Pension Plus 2 (Hybrid)	6.2%	Open
Defined Contribution	0.0%	Open

Employer contributions range from 13.39% to 19.78% and are determined based on employee elections. The District's required and actual contributions to the plan for the year ended September 30, 2021 were \$5,022,667. The District's required and actual pension contributions include an allocation of \$2,154,431 in revenue received from the State of Michigan, and remitted to the System, to fund the MPSERS unfunded actuarial accrued liability (UAAL) stabilization rate for the year ended September 30, 2021.

OPEB Contributions – OPEB employee contributions in effect for the fiscal year ended September 30, 2021 range from 0% - 3%. OPEB contributions are also subject to law under Public Act 300 of 1980, as amended, and the provisions may be amended only by action of the State Legislature. Employers are required to contribute amounts necessary to finance the coverage of active and retired members.

Employer contributions range from 7.57% to 8.43% for the plan year ended September 30, 2021 and are determined based on employee elections. Required contributions to the OPEB plan from the District were \$1,238,255 for the year ended September 30, 2021. The District's required and actual OPEB contributions include an allocation of \$0 in revenue received from the State of Michigan, and remitted to the System, to fund the MPSERS unfunded actuarial accrued liability (UAAL) stabilization rate for the year ended September 30, 2021.

Pension/OPEB Liabilities, Pension/OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions/OPEB

Proportionate Share of School District's Net Pension Liability - At June 30, 2022, the District reported a liability of \$39,603,290 for its proportionate share of the MPSERS net pension liability. The net pension liability was measured as of September 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation rolled forward from September 30, 2020. The District's proportionate share of the net pension liability was determined by dividing each employer's statutorily required pension contributions to the System during the measurement period by the percent of statutorily required pension contributions from all applicable employers during the measurement period. At September 30, 2021, the District's proportionate share was .16727603 percent, an increase of .00019553 percent from its proportion measured as of September 30, 2020.

Harper Creek Community Schools
Notes to Financial Statements

Note 10 – Defined Benefit Pension Plan and Postemployment Benefits Other Than Pensions (Continued)

Pension/OPEB Liabilities, Pension/OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions/OPEB (Continued)

Pension Expense - For the year ended June 30, 2022, the School District recognized pension expense of \$5,040,469, inclusive of payments to fund the MPSERS UAAL stabilization rate.

Proportionate Share of School District's Net OPEB Liability - At June 30, 2022, the District reported a liability of \$2,546,048 for its proportionate share of the MPSERS net OPEB liability. The net OPEB liability was measured as of September 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation rolled forward from September 30, 2020. The District's proportionate share of the net OPEB liability was determined by dividing each employer's statutorily required OPEB contributions to the System during the measurement period by the percent of statutorily required OPEB contributions from all applicable employers during the measurement period. At September 30, 2021, the District's proportionate share was .16680327 percent, an increase of .00095330 percent from its proportion measured as of September 30, 2020.

OPEB Expense - For the year ended June 30, 2022, the School District recognized OPEB benefit of \$1,282,794 inclusive of payments to fund the MPSERS UAAL stabilization rate.

Deferred Outflows and Deferred Inflows - At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions and OPEB from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
	Pension	OPEB	Pension	OPEB
Difference between expected and actual experience	\$ 613,472	\$ -	\$ 233,216	\$ 7,267,513
Changes of assumptions	2,496,450	2,128,370	-	318,484
Net difference between projected and actual earnings on pension/OPEB plan investments	-	-	12,732,330	1,919,002
Changes in proportion and differences between District contributions and proportionate share of contributions	717,877	354,722	52,938	32,991
District contributions subsequent to the measurement date	5,327,272	1,112,188	2,618,710	-
Total	<u>\$ 9,155,071</u>	<u>\$ 3,595,280</u>	<u>\$ 15,637,194</u>	<u>\$ 9,537,990</u>

\$5,327,272 reported as deferred outflows of resources related to pensions resulting from District employer contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2023.

\$1,112,188 reported as deferred outflows of resources related to OPEB resulting from District employer contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2023.

Harper Creek Community Schools
Notes to Financial Statements

Note 10 – Defined Benefit Pension Plan and Postemployment Benefits Other Than Pensions (Continued)

Pension/OPEB Liabilities, Pension/OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions/OPEB (Continued)

Deferred Outflows and Deferred (Continued)

Other amounts reported as deferred outflows of resources and deferred (inflows) of resources related to pensions and OPEB will be recognized in pension/OPEB expense as follows:

Year Ended June 30	Pension	OPEB
2023	\$ (714,019)	\$ (1,778,539)
2024	(2,013,007)	(1,647,469)
2025	(3,026,307)	(1,563,803)
2026	(3,437,352)	(1,492,056)
2027	-	(506,571)
2028	-	(66,460)

Payables to the Pension/OPEB Plan - The District reported an accrued pension/OPEB plan payable at June 30, 2022 of \$389,422. This amount represents employee withholdings and the employer amount payable for wages earned at June 30, 2022 but not yet paid. The District is current on all required pension and OPEB plan payments. Amounts accrued at year end represent current payments for June paid in July, accruals for summer pay primarily for teachers, and the contributions due from State revenue Section 147c restricted to fund the MPSERS unfunded actuarial accrued liability (UAAL).

Actuarial Assumptions

Actuarial Valuations and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

A summary of actuarial assumptions as of the latest actuarial valuation follows:

Valuation date	September 30, 2020
Actuarial cost method	Entry age, normal
Wage inflation rate	2.75%
Investment rate of return:	
MIP and Basic plans	6.80%, net of investment expenses
Pension Plus Plan	6.80%, net of investment expenses
Pension Plus 2 Plan	6.00%, net of investment expenses
OPEB	6.95%, net of investment expenses
Projected salary increases	2.75 – 11.55%, including wage inflation at 2.75%
Healthcare cost trend rate	Pre-65: 7.75% Year 1 graded to 3.5% Year 15; 3.0% Year 120 Post-65: 5.25% Year 1 graded to 3.5% Year 15; 3.0% Year 120
Cost of living pension adjustments	3.0% annual non-compounded for MIP members
Mortality: Retirees:	RP-2014 Male and Female Healthy Annuitant Mortality Tables scaled by 82% for males and 78% for females and adjusted for mortality improvements using projection scale MP-2017 from 2006.

Harper Creek Community Schools
Notes to Financial Statements

Note 10 – Defined Benefit Pension Plan and Postemployment Benefits Other Than Pensions (Continued)

Actuarial Assumptions (Continued)

Mortality: Active Members:	RP-2014 Male and Female Employee Annuitant Mortality Tables, scaled 100% and adjusted for mortality improvements using projection scale MP-2017 from 2006.
Disabled Retirees:	RP-2014 Male and Female Employee Disabled Annuitant Mortality Tables, scaled 100% and adjusted for mortality improvements using projection scale MP-2017 from 2006.

Other Assumptions (OPEB) – applies to individuals hired before September 4, 2012:

Opt-Out Assumption	21% of eligible participants hired before July 1, 2008 and 30% of those hired after June 30, 2008 are assumed to opt out of the retiree health plan.
Survivor Coverage	80% of male retirees and 67% of female retirees are assumed to have coverages continuing after the retiree's death.
Coverage Election at Retirement	75% of male and 60% of female future retirees are assumed to elect coverage for 1 or more dependents.

Additional assumption information includes the following:

- Assumption changes as a result of an experience study for the periods 2012 through 2017 have been adopted by the System for use in the annual pension and OPEB valuations beginning with the September 30, 2017 valuation. The total pension/OPEB liability as of September 30, 2021 is based on the results of an actuarial valuation date of September 30, 2020, and rolled forward using generally accepted actuarial procedures, including the experience study.
- Recognition period for liabilities is the average of the expected remaining service lives of all employees in years – 4.4367 for pension plan employers and 6.1312 for OPEB plan employers.
- Recognition period for assets in years is 5.0000.
- Full actuarial assumptions are available in the 2021 MPSERS Comprehensive Annual Financial Report found on the ORS website at www.michigan.gov/orsschools.

Long-Term Expected Rate of Return on Plan Assets – The long-term expected rate of return on pension/OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension/OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Harper Creek Community Schools
Notes to Financial Statements

Note 10 – Defined Benefit Pension Plan and Postemployment Benefits Other Than Pensions (Continued)

Actuarial Assumptions (Continued)

Best estimates of arithmetic real rates of return for each major asset class included in the pension/OPEB plan's target asset allocation as of September 30, 2021, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return*</u>
Domestic equity pools	25.0%	5.4%
Private equity pools	16.0%	9.1%
International equity	15.0%	7.5%
Fixed income pools	10.5%	(0.7)%
Real estate and infrastructure pools	10.0%	5.4%
Absolute return pools	9.0%	2.6%
Real return/opportunistic pools	12.5%	6.1%
Short-term investment pools	<u>2.0%</u>	(1.3)%
Total	<u>100.0%</u>	

*Long-term rates of return are net of administrative expenses and 2.0% inflation.

Rate of Return – For the fiscal year ended September 30, 2021, the annual money-weighted rate of return on pension/OPEB plan investments, net of pension/OPEB plan investment expense, was 27.30% and 27.14%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate - Discount rates of 6.80% and 6.95% were used to measure the total pension and OPEB liabilities, respectively (6.0% for the Pension Plus 2 plan). These discount rates were based on the long-term expected rates of return on pension and OPEB plan investments of 6.80% and 6.95%, respectively (6.0% for the Pension Plus 2 plan). The projection of cash flows used to determine these discount rates assumed that plan member contributions will be made at the current contribution rates and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rates. Based on these assumptions, the pension/OPEB plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension/OPEB plan investments was applied to all periods of projected benefits payments to determine the total pension/OPEB liabilities.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate - The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 6.80% (6.00% for the Pension Plus 2 Plan), as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher:

<u>1% Decrease</u> <u>5.80%/5.80%/5.00%</u>	<u>Current Single Discount Rate Assumption</u> <u>6.80%/6.80%/6.00%</u>	<u>1% Increase</u> <u>7.80%/7.80%/7.00%</u>
<u>\$56,621,964</u>	<u>\$39,603,290</u>	<u>\$25,493,693</u>

*Discount rates listed in the following order: Basic and Member Investment Plan (MIP), Pension Plus, and Pension Plus 2.

Harper Creek Community Schools
Notes to Financial Statements

Note 10 – Defined Benefit Pension Plan and Postemployment Benefits Other Than Pensions (Continued)

Actuarial Assumptions (Continued)

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate - The following presents the School District's proportionate share of the net OPEB liability calculated using the discount rate of 6.95%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher:

1% Decrease 5.95%	Current Discount Rate 6.95%	1% Increase 7.95%
<u>\$4,731,017</u>	<u>\$2,546,048</u>	<u>\$691,790</u>

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate - The following presents the School District's proportionate share of the net OPEB liability calculated using the assumed trend rates, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a trend rate that is one percentage point lower or one percentage point higher:

1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
<u>\$619,688</u>	<u>\$2,546,048</u>	<u>\$4,713,435</u>

Note 11 – Federal and State Grants

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowance under terms of the grants, management believes that any required reimbursements would not be material.

Note 12 – Net Investment in Capital Assets

The composition of net investment in capital assets as of June 30, 2022, was as follows:

Capital assets not being depreciated	\$ 1,404,390
Capital assets being depreciated, net	51,787,071
Installment debt	(42,462,519)
Non-capital related debt	14,895,000
Bond premium	(2,258,984)
Deferred charge on bond refunding	<u>794,678</u>
 Net investment in capital assets	 <u><u>\$ 24,159,636</u></u>

Notes to Required Supplementary Information Pension and OPEB Schedules
Year Ended June 30, 2022

Changes of Benefit Terms: There were no changes of benefit terms in 2021.

Changes of Assumptions: For the State's fiscal year ended September 30, 2021:

The recognition period for liabilities, an average of the expected remaining service lives of all employees, changed to 4.4367 from 4.4892 for pension plan employers and to 6.1312 from 5.9870 for OPEB plan employers.

The healthcare cost trend rate was split between two age groups - Pre-65, which used trend rates of 7.75% for Year 1 graded to 3.5% Year 15 and 3.0% for Year 20, and Post-65, which used trend rates of 5.25% for Year 1 graded to 3.5% for Year 15 and 3.0% for Year 20. The prior healthcare cost trend rate was reported altogether with trend rates of 7.0% for Year 1 graded to 2.5% for Year 15.
